

The logo for 'enjoy' is written in a white, lowercase, serif font inside a blue oval. Below the oval, the tagline 'THE ITALIAN WAY OF LIVING' is written in a smaller, white, uppercase, sans-serif font. The entire logo is set against a background of various food items like a fork and spoon, a pizza, a cup of coffee, and a bottle of wine, all arranged in a decorative, curved border around the central text area.

enjoy®

THE ITALIAN WAY OF LIVING

CAUTION: HOT STUFF !!

Do you often spend the entire dinner party in the kitchen, while your spouse is having interesting conversation with all your friends?

enjoy socializing with your dinner guests, not just cooking for them.

Do you like to bring new or exotic dishes to social or family gatherings, only to have them spoiled by being cold?

enjoy a hot meal several hours after you have prepared it.

Is the baking dish you use for new recipes not exactly dinner table worthy?

enjoy the compliments you get on your beautifully designed food server.

Simply, **enjoy** !

Introducing the **enjoy** Thermal Food Server from Italy. Practical in function, beautiful in design.

Inside is a porcelain dish that can be used to prepare any meal in a traditional oven or microwave.

Outside is a high quality, thermal container that will maintain your hot foods for several hours without any alteration to food quality or taste.

After you cook in the porcelain dish, simply place it directly into the thermal container and seal the lid. Your meal is kept hot until your family or guests are ready to eat.

The thermal food server's colours and design are so attractive that you will want to place it right on your serving table. It may even become the "centerpiece" of dinner conversation.

Choose an oval or rectangular **enjoy** Thermal Food Server in the size that meets your needs and the colour that matches your decor.
